FELLOWSHIPONE GO

What is FellowshipOne GO?

A new database that replaces the "InFellowship" portal on our website. This new system will serve as an online directory, church calendar, and group finder (including small groups, classes, and Five Points ministries), along with online giving, and remote check-in for children.
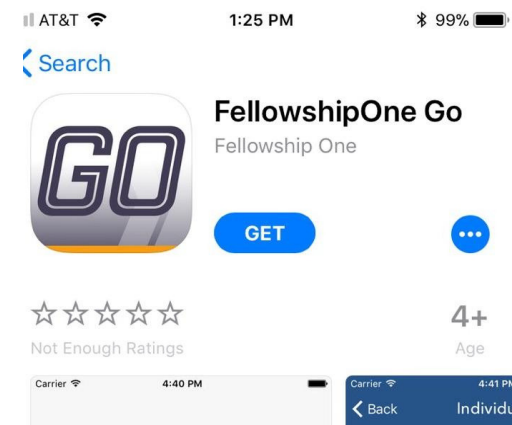

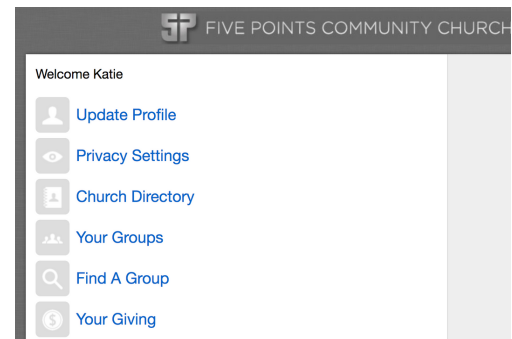

Why make the change?

FellowshipOne has made many improvements to the new GO system, it is simplified, a little cheaper, and mobile-friendly.

How do I setup an account?

Follow the link you received in an email to set up an account, go to our website under "Get Involved" to "Login," or download the mobile app.
Domain: fivepoints.fellowshiponego.com

Key Features

① Calendar
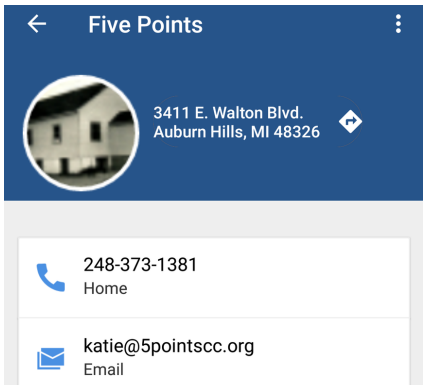

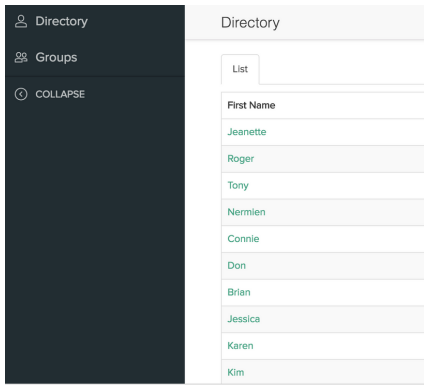

The calendar on our website will remain in tact, but access this calendar through the app, RSVP to events, and contact the coordinator.
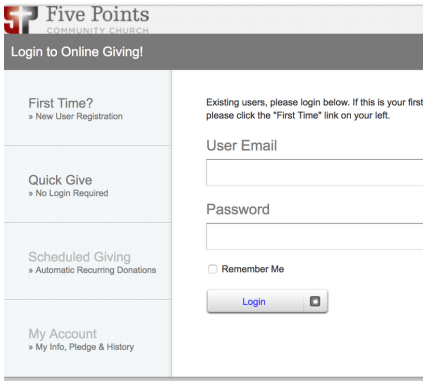

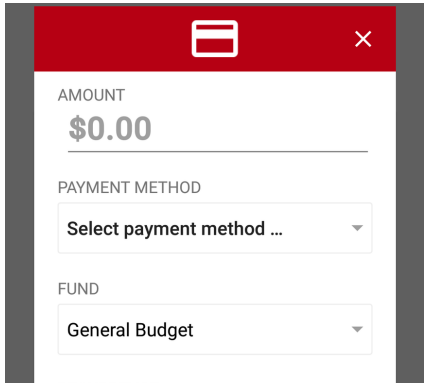

② Directory

Find contact info for members and attenders of Five Points. Address, phone, email, and photo will be listed.
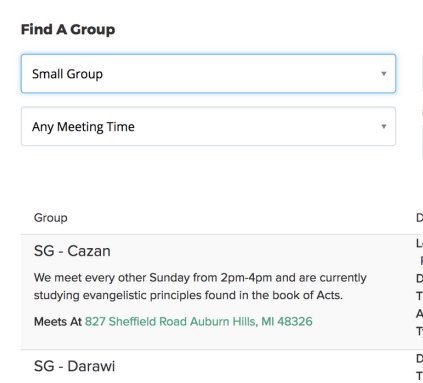

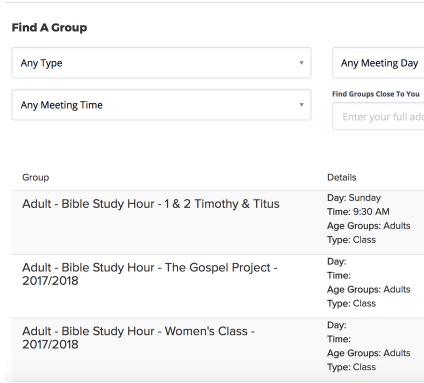

③ Online Giving

Giving can be done through the app, or through a portal on our website. All previous online givers will need to setup a new account and reenter their giving schedule and payment information.
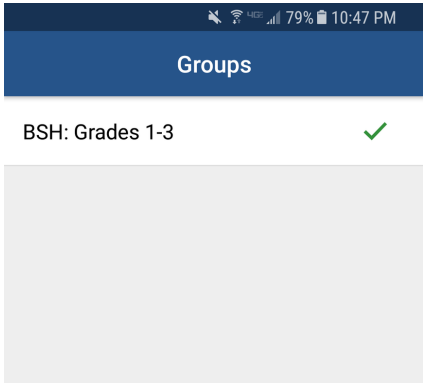

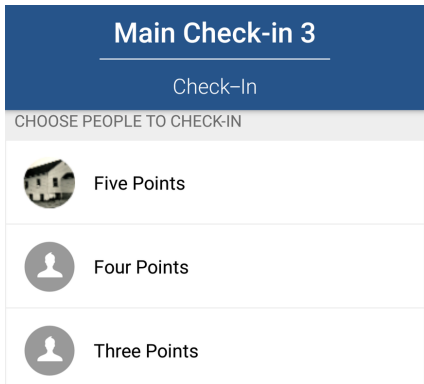

④ Group Finder

Allows users to search all groups, including small groups, studies, and Five Points ministries. View the description of the group, meeting time, and request to join and find out more information from the leader.

⑤ Check-in

For those who check-in children at the kiosks, remote check-in is now available from the app. Just check-in on your phone and collect your tags at the far-right printer.

Have more questions? Please contact Katie Carroll (katie@5pointscc.org) or Ben O'Shea (ben@5pointscc.org). Help will be at the Welcome Desk after the morning service on February 25 & March 4, and after Wednesday evening activities on February 28 & March 7
